BREAKING NEWS

The exam phase begins on Monday – we wish you a lot of success and the best of luck!

UNIVERSITY POLITICS

Yesterday we hosted a **general assembly for all students at the philosophical faculty**, regarding the topic of the reorganization. The chancellor, president and some other persons from different councils were present to answer your questions. Here is a short overview of the most important facts: The two **new faculties** will be the faculty of **social and educational sciences** and the **faculty of humanities and cultural studies**. They will be splitted alongside the departments of the professorships and the courses will be grouped to the department, where the professorships who do the main part of the education, are located. In a [paper from the dean](#) you can find a brief overview of how this will look like. The two following semesters will be used to complete the changes, which means that during this time the now existing panels will take over all the work. In the wintersemester 2023/24 the new committees should be prepared to start off their work and both faculties then have their own committees.

For us as students, there will hardly be any changes and the goal is that there no problems for the continuing of your studies as well. Your contact persons will stay the same as now, which means that e.g. the study deans or the coordinators of our studies are the ones to contact also in the future. We hope that you were given the opportunity to ask your questions in the assembly and got satisfying answers and that you are now informed a little better about the reorganization of our faculty than before! If you have any questions or doubts, you can just contact us through all our channels.

NEWS FROM YOUR REPRESENTATIVES

On the 6th of July we had our **university elections**, where you had the possibility to vote your student representation for the faculty council. This year 9,7 % of the students of our faculty voted, which is around 1,5% more than last year. Thanks to everybody for taking part in the election and for your trust in us!

As board of the student representation at the faculty you chose Johanna, Max, Melina and Lilly. Next year they will represent you and your interests in the different committees of our faculty.

You can also [vote](#) for the **Student Council Award for Good Teaching** until tomorrow. We are excited about your decision und will inform you about the winners on our platforms!

EVENTS

The chairs of Anglistics and Americanisms and we as student representatives again organized the **Midsummer Nights Readings**. This event took place on the 12th of July. There were many different contributions in the spectrum from music to poems. We hope you enjoyed the evening! We want to thank all the participants that contributed something to make this event great and funny. A special thank you goes out to the university group of Amnesty International, who sold drinks.

Moreover, last Saturday at the Ortsspitze we had the **“student’s day”** where many student groups and representatives created an interesting and diverse programm with theater performances or childhood-games to play. We hope you had fun and liked the programm!
