The popular **ColorNight** of the Fachschaft Philo also took place again this semester. If you also feel like getting creative in this setting, you can look forward to another ColorNight next semester!

On the 19th of January, the Studimental Team organised a **lecture on the topic of „Autism“**. Johanna Zechmeister, psychologist of the STWNO, gave a short scientific introduction. Julian Leske then told us about his everyday life as an autistic person with Asperger's syndrome.

If you have free time **tonight at 6.30 pm** or need a little break from studying, you are welcome to take part in the workshop „Artgerechte Bürohaltung“. This semester, we as the Fachschaft Philo will once again award the **“Fachschaftspreis für gute Lehre“**. You could nominate your favourite lecturer in the categories “lecture”, “seminar”, “tutorial” and “language course” until the 15th of January. You **can still vote [here](#)** up to and including the 30th of January to decide who should receive the prize.

You can also take part in the **student survey** of the Fachschaft Philo [here](#).
